WHAT IS PROJECT WILD?

Project WILD is a fun way to teach Reading, Writing, Art, Math, Science, Music, Physical Education, etc. It matches wild animals with activities that integrate core curriculums of all grades. Developed by classroom teachers and experts from western wildlife agencies, it is designed to develop awareness, knowledge and skills related to wildlife, people and the environment. It involves kids and animals--the proven formula for generating classroom interest and participation. **Activities fulfill many of the Utah State Core Curriculum Standards & Objectives.** Literature connections offered to supplement activities also promote student literacy skills.
